**ABSTRACT**

*Ipomopsis congesta* (Hook.) V. Grant var. *montana* (Constance & Rollins) Reveal and *I. congesta* var. *viridis* (Cronquist) Reveal are established to complete the transfer of all varieties from *Gilia* to *Ipomopsis*.

**KEY WORDS:** *Ipomopsis*, *Gilia*, *Polemoniaceae*

---

Over the past several years various authors (Dorn 1988; Tiehm 1996; Welsh 2003) have transferred varieties of *Gilia congesta* as circumscribed by Constance and Rollins (1936) and Cronquist (1959) to *Ipomopsis* as defined by Grant (1956) and Day (1980). Two more names are moved to complete the task for the Intermountain West.

*Ipomopsis congesta* (Hook.) V. Grant var. *montana* (Constance & Rollins) Reveal, **comb. nov.** Based on *Gilia congesta* Hook. var. *montana* Constance & Rollins, Amer. J. Bot. 23: 439. 1936. *Gilia montana* A. Nelson & P. B. Kenn., Proc. Biol. Soc. Wash. 19: 37. 1906, non (Greene) Rattan (1898).

*Ipomopsis congesta* (Hook.) V. Grant var. *viridis* (Cronquist) Reveal, **comb. nov.** Based on *Gilia congesta* Hook. var. *viridis* Cronquist, Vasc. Pl. Pacific Northwest. 4: 107. 1959.

### ACKNOWLEDGMENTS

The manuscript was reviewed by Drs. Kanchi Gandhi (GH), Thomas Zanoni (NY), and Stanley L. Welsh (BRY) to whom I am grateful.
